FOR IMMEDIATE RELEASE

Covington Barn Fire

Kent, Wash – February 14, 2020 – At 7:56 AM a neighbor saw smoke and flames coming from a barn on an adjacent property and called 911.

The first unit on scene had smoke and flames coming from the west side of the structure and used their tank water on the fire engine to begin to knock the fire down.

Additional fire engines arrived and helped connect a 300-foot hose lay from the hydrant to the “attack” engine allowing the crews enough water to extinguish the fire.

All animals were safely out of the barn and the property owner was not on location at the time of the fire.

Mountain View Fire and Rescue, South King County Medic One, and King County Sheriffs assisted at the fire scene.
