

Puget Sound Fire uses *The Compliance Engine* for all Fire Protection System Reports

- **All Contractors are required to upload confidence reports to www.thecomplianceengine.com.**
- **The Code requires the reports to be uploaded within 10 days of completing the confidence test.**

Fire Protection Systems tracked by Puget Sound Fire are:

- Automatic Closing Fire Assemblies (Fire Doors)
- Clean Agent Suppression System
- Emergency Power Generator
- Emergency Responder Radio Coverage System
- Fire Alarm
- Fire Escape
- Fire Pump
- Hood Suppression System
- Commercial Kitchen Exhaust Cleaning
- Paint/Spray Booth Suppression
- Private Fire Hydrants
- Smoke Control System
- Standpipe

Please call your contractor and verify that they have uploaded a copy of your Confidence Report. It is your responsibility as the business owner or property owner to have current Confidence Reports completed.

Any questions, please contact Captain Flood at (253) 856-4418 or DFlood@PugetSoundFire.org.
